

*Unique slide structure
enables easier extraction*

LC Push-Pull Connector Series

Uniquely designed to enable easier extraction of the connector from high-density packaging, the LC Push-Pull Connector Series features a pull-slide mechanism on top. Simply pull the slide back, and the latch is released. No need to leave extra space at the top or bottom of the connector to depress the latch.

Key LC Push-Pull Connector features include:

- *Uniboot type available. Simplex/Duplex type coming soon*
- *SM, MM, APC types available*
- *Available for 2.0mm, 3.0mm, 3.6mm and 5.0mm cable types*
- *UL94-V0 flammability grade*
- *RoHS and REACH compliant*
- *IEC 61574-20, TIA/EIA 604-10A*
