

LC Uniboot Polarity Reversible Connector

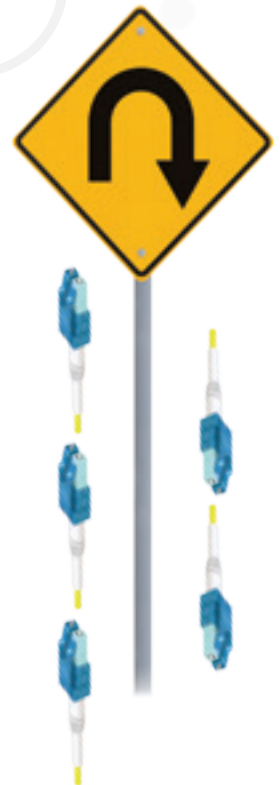

The simplest polarity reverse method in the industry.

The LC Uniboot Polarity Reversible Connector offers the simplest method for reversing polarity in the industry. This proven connector is available in a choice of designs, one which requires a jig for reversing polarity and another that does not.

With the latest LC Uniboot Connector, there is no jig required to reverse polarity.

There is no need for delicate hand work, and there is no exposure of fibers. It's the industry's simplest way to reverse polarity.

- *SM, MM, APC types available*
- *Available for 2.0mm, 3.0mm, 3.6mm and 5.0mm cable types*
- *UL94-V0 flammability grade*
- *RoHS and REACH compliant*
- *IEC6157420, TIA/EIA 604-10A*
